Copartnership Formed.

W. J. BAILEY, T. B. BAILEY, JOHN W. McRAE. Jan. 2d, 1837. PROPOSED BIBLE CONVENTION.

A Circular prepared by direction of the Charles.

ton Bible Society. CHARLESTON, May 1837. Sir:-The Managers of the Charleston Bible Society, have appointed the undersigned, a com-

years ago; and if so, by what means and by what agencies the plan can be most fully and thoroughly, and jediciously carried into effect, so that our entire reading population, have free ac-cess to copies of the Holy Scriptures in their own possession. And finally to deliberate upon any other subject connected with the diffusion of the Bible, whether at home or abread, in Christian or in heathen lands.

The general fact is known, that districts of country, which have been thoroughly supplied one year have contained many destitute families he next; and what is true of one district is true of all the rest, as the same causes operate to create the want, viz: the formation of new families, he immigration of others, and the wearing out or he Bibles themselves In most cases where te-supply has been undertaken, after an interval of four or five years, the destitution has been found full half as great as at the period of the original supply, and in some cases greater, from the causes already assigned. We allude to this fact because it was one of the principal motives which induced the Managers of the Charleston Bible Society to propose a convention.

The Committee regard it as superfluous to urge

the subject upon your consideration by any further remarks, as all the reasons for a Convention, which we could submit, must be farmiliar to your mind. All that we have so solicit, is, that you would call the attention of your society to the proposition, that should they deem it expedient, delegates may be appointed to represent your So.

ciety in the Convention.
We have the honor to subscribe ourselves, in name, and by the appointment of the Managers of the Charleston Bible Society your fellow laborers in the Bible cause. B. MANLY,

B. GILDERSLEEVE. Committee and Cor'ding Secretaries of the Charleston Society Bible.

Removal.

HE subscribers have this day removed to a NEW BUILDING one door below their old stand, and offer for sale a large and extensive stock of NEW & FASHIONABLE GOODS, consisting of Day Goods, HARDWARE, & GRO OBRIES; Also-a large stock of Domestic and Foreign Liquors & Wines; all of which will be sold low for cash or country produce.

M. & R HAILEY.

heir accuracy, and not only those of mine, | are in possession of the secret. They all dens. concur in my account of it, and further asmale in one or two hours. About this there is tober. was \$19 10s, nearly \$90 from each no mistake. By the same means, the most cow. - Selle Cult. baulky horse can be made to pull as true as the best dray horse in your city, and oxen can be broke to the voke, and to pull without flinching, in an hour or more.

Some further facts in relation to 'the roan' on which Mount operated at Kaskuskia were given to me, in sub tance thus: that the next day, in taking him from the wagon, the driver went behind his legs unhitched the traces, gave him a kick, and he trotted off like an old stage horse; and further, when he left the town 'roan' was turnoffering to run away, and this, a horse raisin the woods, and but a few hours under the dominion of man! All this, I admit. is a severe draft upon creduliy, but it is as true as that controul has been given to us over the whole brute creation.

I have ascertained to my perfect satisfaction, that the means used have no injurious effects whatever on the spirits of the horse; upon his disposition they act like a charm, and seem to attach him to the person who administers them.

A gentleman who has practised the art assured me that he caught, for his little sisno more doubt than that you have an exis-

Remarks by the Editor of the Turf Regisself need not wonder that many people conasserted by 'Sigma' and various other respectable gentlemen, are neither more nor ess than what are almost universally believed to be impossibilities. If we were to committed in all parts of India by organ. assert that we could take a wild horse, and in one hour so completely change his dispotractible, so that he can be ridden by any person or driven in a carrage, there are few by 'Signa,' and which now candidly believe the system of Thuggee is the most extraorcan be done. We did not intend to cast a shadow of doubt on the statement of 'Sigma,' nor do we believe that 'G' did. We know

what he asserted as a fact within his own The editor of the Turf Register has now the pleasure of announcing that he is in possession of the secret; it has however, been in the secret.' By the way, we must invent murders for which they were tried were

It is mentioned by Sir Humphrey Davy. upon the authority of an article in the Philosophical transactions for 1799, that in the years 1795 and 1796, when almost the whole crop of corn, (wheat,) in the British island, was blighted, the varieties obtained by crossing alone escaped, though sown in several soils, and in very different situa-

The manner of crossing is very simple, merely by sowing different kinds of wheat, in the same field, the product of which will be a new variety. The fact as detailed above seemed to us to be important to be known, we have therefore abstracted it with a view of laying it before our readers, and would suggest, that if the production of a new In your March number, at page 316 you variety, by this simple process ofcrosing, has have made some remarks on an article of the tendency to impart superior power to The objects to be secured by such a Conven. mine on the subject which is at the head of it to resist disease, would it not be well for certain rites, sacrifices, and offerings. This tion, are to ascertain what has been done in this this communication, calcula ed to inspire wheat-growers to make the experiment. It deity, who, according to their belief, guides

COTTON CULTIVATOR. Our attention has lately been directed to a new invention which has late'y been patented by Mr. Join We . ver, of this city, and which is considered by Southern gentlemen as a very useful machine for cultiva ing & thinning cotton.

The machine (which is left at Mr. J. F. Callan's drug store for the inspection of the curious) is expected to do the work of fifty men. Its operation consists infirst removing the earth from each side the row of cotton. ed loose and trotted after the wagon, never to prepare it for thinning; then thinning the cotton by means of hoes set at reguler distances; and lastly, in harrowing up the ground after it has been passed over by the Cultivator. We are informed that this machine has been examined by several practical and scientific gentlemen, who have pronounced it a very valuable invention. Nat. Intell.

> From the Foreign Missionary Chronicle. THE HINDU GODDESS KALEE.

Ir has long been known that the most pernicious consequences have resulted from the worship of this heathen demon. To ter, a wild Point horse, and in one week had the black goddess with a collar of golden so completely gentled him that she rode him | skulls, as she is exhibited in all her principal every where with the most perfect safety. I temples, human sacrifices were anciently That the means used, properly administered, offered, as the Vedas enjoined. We are will produce the effects spoken of, there is there told that the blood of a man produces pleasure in her mind, which lasts 1000 years; that by the blood of three men the pleasure is extended one hundred thousand years. Kalce, Devec, Durga, or Bhowanec. as she is indifferently called, is the idol of The subject of the above article from the drunkard and the thief; the robber, ing every day. The facts stated by vari- worshippers; and all delight to propitiate ous persons are so strange, so out of the a being whose worship is obscenity, and usual course of things," that 'Sigma' him- who delights in the blood of man and beast. Until quite lately, however, it was not known tinue to doubt, though they are affirmed to how very extensive is the system of robby persons ever so respectable. The facts | bery and murder perpetrated under her protection, and as a part of her horrid wor-

The numerous robberies and murders ized bands, awakened the attention of the British government in Inlia, and induced sition and habits as to render him docile and it, in 1830, to take the most energetic measures for their suppression, and for the protection of the lives and property of the people in the world that would believe us; better disposed part of the inhabitants .and yet this is simply the very fact asserted | These murderers are called Thugs; and dinary that has ever been recorded in the

history of the human ruce. A few months ago a . octavo volume of the character of Sigma' too well to doubt | 800 pages was received at the Missionary Rooms, accompanied by the following note, from one of the officers of the Bengal civil

"I have the pleasure of sending you a very curious and important book, which acquired at too late a day for a trial before has been printed by order of this govern-

a name for it; will make a noise in the world not more than the one hundredth part of the murders they had committed in their career of crime.

> Mankind, in considering the necessity of restraining those evil propensities, which affect the life, property, and character of their fellow men, commonly appeal to three standards; 1st. The will of the deity, as revealed to them in their scriptures, or interpreted to them by the expounders of their religion. 2d. The moral feelings of the circles of society in whom they move. 3d. The penal laws in force, and the character of their administration.

1st. The Thug associations have been taught by those whom they revere as the expounders of the will of their dairy, that the murders they perpetrate are pleasing to her, provided they are perpetrated under cortain restrictions, attended by certain observances, and preceded and followed by and protects them, is ever manifesting her will by signs; and as long as they under. stand and observe these signs, they all consider themselves as acting in conformity to
